

# **DOMESTIC FIREPLACE MORTAR**

## **Product Data Sheet**

**Domestic Fireplace Mortar** is a premixed and ready to use regular mortar. It was developed for installation of firebrick in masonry fireplace installations. It also has many other uses such as in chimneys, boilers, incinerators, furnaces, kilns, etc.

- This refractory mortar is beige in color and is shipped in 15 lb. and 50 lb. plastic pails.
- For estimating purposes 50 lbs. will lay up approximately 100 firebrick (2 ½ inch thick) if joint thickness is 1/16 inch to 1/8 inch as recommended.
- Mix thoroughly. No other additives required.
- Meets and exceeds ASTM C-199 medium duty.
- Meets all local and national building codes.
- Good for applications well over 2000 °F.
- **DOMESTIC FIREPLACE MORTAR** is an air setting product however may be water soluble in service. Do not use on exterior applications or where moisture may be present, use **HEAT STOP-II** or **HEAT STOP – 50** non soluble products for moisture present applications
